

# Aslam Khalil

Front End Developer

Solution-driven Developer adept at contributing to a highly collaborative work environment, finding solutions and determining customer satisfaction. Demonstrated talent for quick learning and adaptability with 2 years of experience in HTML, CSS, Javascript and React.

## EXPERIENCE

### RobotICT, Prague — Full-Stack Developer

September 2021 - December 2021

- Refactored all data tables and templates in the company's software product (DNA) for better UX.
- Designed and updated layouts to meet usability and performance requirements using Meteor.js.
- Collaborated with senior developers in an Agile Scrum environment to effectively maintain project timelines and utilize available resources.
- Contributed in the development cycle of the DNA project by learning its functionality and suggesting better approaches to enhance its performance.

### Risidio, London — Front-End Developer

February 2022 - Present

- Collaborating with indigenous artists to generate NFTs on the Risidio marketplace. <https://staging.risidio.com/>
- Implementing new designs made by the design team on Risidio corporate website. <https://risidio.com/>
- Optimizing and refactoring the code for various web applications for enhanced performance and usability.
- Fixing and improving old code to be clearer and readable for current and future developers.
